

### **organizational behaviour pdf**

In industrial and organizational psychology, organizational citizenship behavior (OCB) is a person's voluntary commitment within an organization or company that is not part of his or her contractual tasks.. Organizational citizenship behavior has been studied since the late 1970s. Over the past three decades, interest in these behaviors has increased substantially.

In organizational behavior and industrial and organizational psychology, organizational commitment is an individual's psychological attachment to the organization. The basis behind many of these studies was to find ways to improve how workers feel about their jobs so that these workers would become more committed to their organizations.

### **Organizational commitment - Wikipedia**

Organizational identification is a theoretically profound and practically important construct. It fundamentally transforms the relationship between employees and their work organizations, because highly identified employees integrate their organizational memberships with their sense of who they are.
